

FOLEX EXHIBITS AT THIS YEARS' FACHPACK

16.8.2018

For this year's Fachpack, the Folex company will present coating plates and compressible underpacking materials for package printing and thereby offer the package printing target group a system solution. The highest printing results are achieved through the use of efficient, technologically highly developed coating plates in combination with Folacomp compressible underpacking material that are optimally matched to the printing press:

In particular, we recommend the use of Folacoat Extreme in the PREMIUM LINE, which is distinguished by top reusability and productivity, as well as the affordable Folacoat Advance coating plate in the ECO LINE, which will persuade you with its appealing price and good coating results – even at the highest speeds.
