PICTOGRAM OVERVIEW

Suitable for colour laser printer

Suitable for mono laser printer

Suitable for colour copier

Suitable for mono copier

Also suitable for machines with high fixing temperature

Heat press activation

Electric iron activation

Offers improved water resistance

Paperbacked short side
HIGH EXPERTISE IN COATING

The Folex Group specialises in the finishing and coating of films and specialities and has production companies based in Switzerland and Germany that offer high-quality products and tailor made services for a wide variety of markets.

Folex dynamically adapts its portfolio to changing customer needs and technical developments. Based on its core competence, coating, Folex constantly works on optimising existing products to develop new potential applications for different technologies. Today Folex offers solutions for many sectors, from the printing industry or digital and large-format printing, the office and home sector, all the way to primary products for the electronics industry. In addition to which, Folex has also developed extensive skills in membrane separation technology.

As a family-owned company with a long-standing tradition, we feel committed to a clearly defined set of values based on integrity, dependability, quality, a love of innovation and awareness of our responsibilities. We have been working with ISO 9001 for decades. As our customer, you can also benefit directly from this competence and our innovation. For instance, we can offer you consulting services during the development phase or develop new solutions on your behalf.
COLOUR LASER FILMS AND PAPERS

- Dedicated coating for colour laser toner
- Consistent printability and runnability
- Superb ink adhesion and image transfer
- Good water and scuff resistant properties
- No limited shelf life
- Durable, tough, tear resistant polyester
- Excellent dimensional stability
- No special handling required

Vibrant ohps and overlays
