

## FOLEX AT FESPA IN MUNICH 23. - 26.5.23 | HALL A2, STAND C09

Dear ladies and gentlemen, dear friends of Folex,

will we be seeing you at FESPA? We look forward to meeting our business friends and partners personally and would like to share some of our exciting new innovations. Folex will be at **stand C09 in hall A2** with information about advertising technology, textile printing and of course display production.

Let our specialists advise you in detail, test our products live at the exhibition stand and discuss your special projects, requirements and new ideas with us.

### Our Highlights at this year's FESPA:

- Two "PVC-free" economy roll-up films
- Innovative range of special self-adhesive films
- Groundbreaking instant-peel films for textile transfers

Also on display at FESPA will be our broad portfolio of sign and display films, including backlit, roll-up and pop-up films, as well as adhesive films and canvas materials.

Our wide, high-quality range of media for large-format inkjet printers is manufactured in Europe. The coatings are suitable for all common inkjet printing technologies, including latex, solvent, aqueous and UV inks. We are looking forward to your visit. We would also be happy to arrange an appointment in advance so we can be sure we have time for you when it suits you best.

The Folex trade fair team looks forward to seeing you!
