

## FOLEX LAUNCHES NEW HIGH-PERFORMANCE COATING PLATE FOR HIGH-SPEED APPLICATIONS

### FOLACOAT® SPEED INCREASES PRODUCTIVITY AND PROCESS RELIABILITY IN SHEETFEED OFFSET PRINTING

Cologne, April 9, 2026 – With [Folacoat® Speed](#), Folex is launching a new high-performance coating plate specifically designed to meet the requirements of printers and packaging printers operating in the high-speed segment, thereby addressing the increasing demands of modern print production. The solution focuses on key challenges in industrial production environments: rising machine speeds, increasing pressure for efficiency, and the need for stable, reproducible processes.

The new coating plate has been developed for use under demanding production conditions. An optimized polymer layer ensures smooth running, excellent coating transfer, and stable processes – tested at speeds of up to 21,000 sheets per hour. Typical sources of disruption such as roller bounce or ink build-up are effectively avoided. As a result, cleaning efforts and downtime are significantly reduced, while process reliability and productivity are sustainably increased.

Folacoat® Speed also offers clear advantages in prepress: an optimized plotting process with a new blue cut visualization film provides improved contrast, enables reliable detection of cut areas, and thus enhances process reliability in day-to-day production.

### MAXIMUM PERFORMANCE THROUGH A THE FOLEX SYSTEM SOLUTION

In combination with the compressible underpacking film Folacomp®, [Folacoat® Speed](#), as part of the Folex system solution, unlocks its full performance potential and enables reproducible results with high cost efficiency.

With [Folacoat® Speed](#), Folex is targeting performance-oriented printers and packaging converters aiming to stabilize their production processes while increasing efficiency.

## ABOUT FOLEX

The Folex group specialises in the finishing and coating of films and specialities and has production companies based in Switzerland (Schwyz) and Germany (Cologne) that offer high-quality products and tailor made services for a wide variety of markets. Today Folex offers solutions for many sectors, from the printing industry or digital and large format printing, the office and home sector, all the way to primary products for the electronics industry.
